Coronavirus update

Relatives / Friends visits to the care home

From the advice released by the government yesterday, we have made the decision to close our homes to all visitors to limit the risk to our staff and residents until further notice. We understand that this will be a difficult time for everyone but we will do everything we can to keep you in contact with your relative by other means such as regular phone calls and/or Skype.

For residents who are at the end stages of their life, we will allow visits from relatives/friends by appointment only. If you require an appointment, please book with the nurse in charge.

If you or any of the people in your household have a persistent cough and/or a high temperature then you and all of your household must isolate for a period of 14 days. You must not visit the care home under any circumstances.

We thank you for your understanding at this time.

Caring because we care
