Coronavirus Update

As you are aware, there have been a significant number of cases of both residents and staff either showing symptoms or testing positive for the coronavirus.

Eighteen residents have now tested positive – and sadly eight of these have now died

Many of our residents are of course frail and elderly and it is always difficult to lose any member of the Bradwell Hall family.

However, the past few weeks truly has been a heart-breaking time for everyone involved in the home.

I wanted to reassure you that since the first case was identified we have introduced strict measures to try and stop the spread of the virus these include:

- Closing the home to visitors
- All staff and residents showing symptoms have been kept in isolation
- All staff have had their temperature checked before entering the home
- Wearing the necessary PPE masks, gloves and aprons.

There is no shortage of these supplies.

I am proud to say that our staff at Bradwell Hall are the most loyal, dedicated and hard-working workforce anyone could wish for. Our priority now is to keep your loved one safe and well and on a brighter note we have seen a number of both staff and residents come out of isolation. We will of course keep you updated and behalf of everyone at Bradwell I would like to thank you for your support in these difficult times.

We thank you for your understanding at this time.

Caring because we care
