Coronavirus Update

We realise that communication with Relatives / Visitors is more difficult at this time due to the restrictions we have in place on Visiting so intend to provide updates via our social media platforms.

We have a number of staff presently off from work due to self-isolating, either because they have displayed symptoms themselves or one of their family member's have. We have had one staff member who has tested positive for Covid-19 and is recovering well from the virus at home.

Our staff are pulling together and working as a team: Nurses, Care Staff, Kitchen Staff, Domestic Staff, Admin Staff are all supporting each other and helping out. Like the NHS we are looking to obtain a list of volunteers that can be contacted if we need extra help and support during this difficult time. If you are a willing volunteer please contact us.

If your relative displays symptoms of Covid-19 we will place them in isolation in their room and barrier-nurse in line with guidance. You will be contacted directly to be advised if your relative displays symptoms.

Over the past few days a number of residents on Chester Wing have displayed symptoms and as a result three were admitted to hospital. One has tested positive for Covid-19 and currently remains in hospital. One has tested negative and has been returned into our care. One is still undergoing tests.

We have 4 further residents who have displayed symptoms and are all currently being isolated in their rooms and staff are barrier-nursing as per guidance.

Thank you to all of our staff for their continued efforts and work at this very difficult time. If you require any further clarification or guidance please contact us and we will help as best we can.

We thank you for your understanding at this time.

Caring because we care
